

VC ELEVATORS & SERVICES

"Mobile Quality, Safety & Assurance..."

Business Portfolio of:

Overview

V.C Elevators and Services is a service oriented organisation, has evolved into one of the most efficient elevator installation and maintenance companies in the Caribbean. This highly esteemed company consists of a team of self directed partners, with a combined experience of over twenty five years in this service industry. V.C Elevators and Services was established not primarily for the purpose of providing their clients with the convenience of the time saving ‘vertical lift’, but for a deeper purpose; of providing that much needed service to those who really require it; the physically challenged, elderly and handicapped. Thus, we simply believe that as long as a building has more than one storey, it must be able to accommodate those persons who need that ‘vertical lift’ most.

Our clients can only expect the best possible service from the inception of the project until the final handing over, and this service is always delivered in an efficient and timely manner. We provide impeccable service in the installation of dumbwaiters, elevators and escalators by utilizing the best and most durable equipment and products supplied primarily by Motion Control Engineering; one of the very few European lift companies that offer complete lift systems, and supply a complete range of solutions in the form of hydraulic or traction technology with MR or MRL elevators. Motion Control Engineering supplies us with the flexibility to acquire elevator sub-assemblies, lift cabins, doors and other electronics as required. With this calibre of product and support available to us, we at V.C Elevators and Services can assure our

clients that they will be supplied with the most innovative, high quality and reliable elevator products, with the best lead times in the industry.

We also provide a wide range of hydraulic car park systems. Traditionally one parking space equated to one car and one car only, but with a park lift system cars may be stacked and organized so that more parking spaces can be created for more people. So whether it's indoors or outdoors, residential or commercial, a park lift system is a great and safe way to utilise space.

V.C Elevators and Services indeed believe that with the use of top of the line products, a good installation, plus good maintenance, will equal maximum efficiency in product operation. It is for this reason, that V.C Elevators and Services is not restricted only to installations, but additionally, we offer capable services such as repairs, servicing and modernization of the above mentioned means of vertical transportation, as well as sale of the equipment with the most reliable after sale service.

Meet the Director

Mr. Vinton J. Alexander - Managing Director/Technician

Adjustment and Trouble shooting
Awarded by Thyssen Elevators Via Regional Elevators in March 2015

Under the leadership of Mr Alexander a dynamic and well balanced team consisting of six technicians spreading over Barbados, St. Lucia and Grenada are fully equipped to serve you. Whether it be an installation, a repair or service, customer satisfaction is guaranteed.

On examining our collective experiential history, it was quite evident that our team members have brought a wealth of skill and talent to the 'plate.' This has only proven to enhance the quality of service that we deliver. Prior to establishing V.C Elevators and Services, our technicians have played key roles in the completion of projects under the Schindler and Otis brands.

Our head technician had the privilege to be a part of the completion of many projects under the Schindler brand. Schindler, a German company, founded since 1874 in Switzerland, is the largest manufacturer of escalators and the second largest manufacturer of elevators in the world. Some of the Schnidler projects which our chief technicians completed were made possible by the following construction companies namely, Rochamel Construction, Reno Gadjadhar Construction (St. Lucia), Jamescob Construction and Johnston International. The projects completed included:

Schindler Elevators

- ✚ Sandy Lane Resorts, St. James Barbados (13 lifts)
- ✚ Sandals Grande, Pigeon Point, St. Lucia (7 lifts)
- ✚ Coco Palm Resort, Rodney Bay, St. Lucia (2 lifts)
- ✚ La Place Carenage, Castries St. Lucia (1 lift)
- ✚ Clico Building, Brazil Street, Castries, St. Lucia (1 lift)
- ✚ Hewanorra Airport, Vieux Fort, St. Lucia (1 lift)
- ✚ Archdiaces, Vigie, Castries, St. Lucia (1 lift)
- ✚ Beausejour Crciket Stadium, Gros-Islet, St. Lucia (2 lifts, 1 dumbwaiter)
- ✚ Blue Coral Mall, Bridge Street, Castries (2 elevators,2 escalators)
- ✚ Police Credit Union, Bridge Street, Castries (1 lift)
- ✚ Tortolla Beef Island Air Traffic Control Tower (1 lift)
- ✚ Clico Building, St. Vincent (1 lift)

Schindler Escalators

- ✚ Bascho, Brazil Street, Castries, St. Lucia (escalator)
- ✚ J.Q. Charles Supermarket, Vieux Fort, St. Lucia (escalator)
- ✚ J. Q. Charles Supermarket Rodney Bay, Gros-Islet, St. Lucia (escalator)
- ✚ Supercenter Supermarket, Warrens, St. Michael, Barbados (escalator)

While directly affiliated with Essco, our head technician had the opportunity to complete a number of projects supported by Otis technology. The Otis Elevator Company is the world's largest manufacturer of vertical transportation systems today, primarily elevators and escalators and was founded in Yonkers, New York USA in 1853. This company has pioneered the development of the safety elevator and being the most popular transportation company, has installed elevators in some of the world's most famous buildings.

Some projects completed under the **Otis brand** by our head technician, while still directly affiliated with Essco include:

- ✚ Ross University, Basseterre, St. Kitts (5 lifts)
- ✚ St. Georges University, St. Georges, Granada (2 lifts)
- ✚ Royal Bank of Canada, St. James, Barbados (1 lift)
- ✚ Manta Ray, St. James, Barbados (1 lift)
- ✚ Overlook, St. James, Barbados (4 lifts)
- ✚ Waterside, St. James, Barbados (1 lift)
- ✚ First Caribbean International Bank Data Base Office, Warrens, Barbados.(2 lifts)
- ✚ Bajan Inn, Hastings, Barbados (1 lift)

As a result of such a rich background in elevator, dumbwaiter and escalator installation and maintenance, our company is confident that we can deliver what we promise. V.C Elevators and Services has thus established a very good relationship with all its past and present clients and will always provide nothing less than exceptional service. Our clients have come from far and wide within the Caribbean Region and our clientele continues to increase steadily.

It would be impossible to reach the heights of success in this field, without the Contractors who construct the buildings in need of vertical transportation. It is for this reason that we feel it is fitting to mention our partners:

- ❖ Shellbury Construction, Barbados
- ❖ Jada Construction, Barbados
- ❖ Creative Design, Grenada
- ❖ Moorjani Construction, Barbados
- ❖ Markham Construction, Barbados
- ❖ Edgehill Associate Ltd.
- ❖ Rotherly Construction Inc.
- ❖ Best Quote Construction Grenada
- ❖ Quinn Construction

A Few Words from the Clientele

It is always good to know how our clients really feel about our service, so that we can ensure that they are satisfied and so that they without a doubt can recommend us to others.

TO WHOM IT MAY CONCERN

This letter serves to advise that **Mr. Vinton Alexander of Lot 56 Mahoe Circle, Union St Philip** has worked with Electric Sales & Service Ltd. as a subcontractor for the past nine (9) years on some of our major projects.

The scope of works was as follows: Installation and commissioning of Elevators.

We have found his work to be very professional and would recommend him for any work in this field.

Yours truly

TO WHOM IT MAY CONCERN

This letter is to confirm that Mr. Vinton Alexander, the director of V.C Elevators and Services was a former employee of Eastern Caribbean Elevator St Lucia Limited.

Mr. Alexander is an experienced technician and is trained in the installation, commissioning, servicing and repairing of elevators and escalators. He has also been a part of some our major projects throughout the region.

His company V.C Elevators and Services has proven to be very reliable and the workmanship is very professional. Therefore I would recommend Mr. Alexander for any aspect of this field.

Yours sincerely,

Regional Elevator (Saint Lucia) Limited

Richard Jordan

Managing Director

21 October 2020

Dear Sir/Madam,

TO WHOM IT MAY CONCERN

We have relied on Mr. Vinton Alexander and his team at VC Elevators for the provision of Lift Operation maintenance for the past three (3) years.

To this day Mr. Alexander and his team has continued to exceed expectations in their reliability and competent execution in handling repairs, keeping to bi-monthly maintenance schedules, annual training and in responding to emergencies at the Worthing Corporate Centre.

During this time I've also observed Mr. Alexander to be a very efficient, honest and an intelligent individual who has always displayed a high degree of leadership, commitment and professionalism in all his undertakings.

In this regard, we at Resolution Life Assurance Company Ltd have no issues in recommending VC Elevators for any prospective opportunities that may come their way as this team will be of great value to any other organization that choose to utilize their service.

Yours sincerely,

Jason Martin (Mr.)
Facilities Consultant

To Whom It May Concern:

RE: VC Elevators and Services

The Grantley Adams International Airport Inc. first entered into relationship with VC Elevators and Services (VC E&S) in November 2016 when they won the bid to supply and install two (2) elevators at the airport. Since then, GAIA Inc. has retained the company for continued maintenance and service of these systems on an annual contractual basis. In addition, VC E&S, also provides maintenance support to other critical mechanical equipment such as baggage conveyors and semi-roller shutter doors.

We are very pleased with the overall service from VC E&S. In particular, their pricing, response, and technical capabilities have been very competitive and attractive. Working with them over the last 4 years has truly enhanced the delivery of service that GAIA Inc. in turn, gives to our stakeholders and it is our hope that the synergistic relationship we have built, will continue for the foreseeable future.

As head of the Mechanical/Electrical Section in the Engineering Department at GAIA Inc., I therefore recommend VC E&S as a supplier of service contractor for elevators, conveyors and their related mechanical systems.

For further clarification and additional information, the undersigned can be contacted through any of the following mediums: -

Tel: (246) 536-1325 (direct)

Tel: (246) 536-1300 (office)
